

## TO BE DIRECTLY WITH HEAD MEN

This Will Be Policy of Salt Lake Traffic Bureau, Says S. H. Babcock.

"Salt Lake is a city of enough importance to deal directly with the head men in railway matters," said S. H. Babcock yesterday, "and that will be the policy to be adopted by the traffic bureau here regarding questions that are of importance to the shippers of Salt Lake. We expect to confer with the men in power."

Mr. Babcock is the recently appointed traffic manager for the Salt Lake Commercial club's traffic bureau. The office rooms reserved for him in the Commercial club's building are not yet quite ready for his occupancy, and he has been putting in his time since he arrived, Friday evening, in visiting the many friends he has in the city. His former residence here will be of great assistance to him in getting quickly settled in his work and he has been having a pleasant time renewing old acquaintances.

"We are not going to raise a hue and cry against the railroads," said Mr. Babcock, "we are not going to ask for ridiculous things, but we are going to ask for what is right, and the quickest way to get what we want, if it is due to us, is to go to the top of the list. Time is often wasted dealing with local representatives. They are as powerless in many instances to help us as we are to help ourselves. It is necessary for them to go higher up before making the orders. Time is usually saved and very often more satisfactory results are obtained by going directly to the men who have the power and authority to change conditions."

"Well," said an old friend in greeting Mr. Babcock yesterday, "I suppose you are here to stir up the railroads, eh?"

"No, sir," replied Mr. Babcock, "I am here to help the railroads find a means of making themselves the greatest blessings possible to the state of Utah and the city of Salt Lake."

## NEWS AND NEAR NEWS IN RAILWAY CIRCLES

S. K. Martin, a well known railroad man in the west, it is reported, has been appointed commercial agent for the Chicago, Rock Island & Pacific at Denver, Colo.

J. A. Hinsey, special agent of the Chicago, Milwaukee & St. Paul railroad, has been appointed also special agent of the line east of Butte of the Chicago, Milwaukee & Puget Sound, the new company formed to take over the Pacific coast extension of the St. Paul road.

Word has been received here that on the Oregon division of the Oregon Railroad & Navigation company's system, the line formerly in operation from La Grande, Ore., to Elgin has been extended from Elgin eastward to take over the Pacific coast extension of the St. Paul road.

## ST. PAUL COMPLETES STEAMSHIP AGREEMENT

It is reported that the Chicago, Milwaukee & St. Paul railroad has completed its arrangements with the Osaka Shosen Kaisha Steamship company, Ltd., of Japan, to carry freight between points in the United States and Japan. Notification of plans to that effect were published in The Herald some time ago and now those plans have materialized, according to notification received here yesterday. The steamship company is reported to be building six new steamers, and already has a fleet of 106 vessels, with a gross tonnage of 90,000 tons, and is now maintaining a regular service along the Japanese, Chinese, Siberian and Korean coasts. The first of the six boats to be used in the trans-Pacific business will be launched at Kobe, Japan, this month, and will be christened the Tacoma Maru. The other vessels will be named the Chicago Maru, the Panama Maru, the Suez Maru, the Canada Maru and the Mexico Maru.

Reports on the progress of the construction of the Pacific coast extension of the St. Paul road are very gratifying. The latest report is to the effect that the road will be prepared to carry through freight in June, and on Aug. 1 through service, with semi-monthly sailings, will be established. The steamships to be used will be of 7,000 tons capacity, with a speed of fourteen knots.

Upon the opening of the Pacific coast extension a number of changes, some of which have already been announced, will go into effect on the St. Paul road. R. M. Calkins, general freight and passenger agent of the C. M. & St. P. of South Dakota and of Montana, who made a visit in Salt Lake this week, after attending the Procella livestock and wool

## Constipation Caused By Indigestion

Is Cured by Helping the Stomach Do Its Work as It Should.

All forms of constipation, bowel or intestinal trouble, trace their origin to the improper digestion of food. The bowels measure thirty feet. The inside walls or surfaces are wound tightly about with millions of nerves. These nerves give life and control millions of little mouths or suckers which are supposed to take nourishment from the food as it leaves the stomach and passes along this thirty-foot human canal.

When indigestion, dyspepsia or stomach trouble occurs, these millions of mouths, it is a fermented decaying mass and holds no nourishment at all.

The little mouths suck it up, impart these impurities to the blood, impregnate the little nerves with poison and so the work of constipation and bowel trouble begins.

A natural juice or secretion belongs normally in the little cells and glands along the mucous membrane of the thirty-foot canal or bowels. When indigestion occurs this juice is lacking and so the mass of waste matter cannot pass along as it should and is piled up and caked in the bowels, thus bringing pain and misery.

After a while the nerves and nerve centers which give vigor and life to the bowel become paralyzed, thus forever prohibiting the bowel from performing its natural duties.

## SECRETARY OF Y. M. C. A. ISSUES STATEMENT ON BOYS AND POOL

Following the action of the Woman's League in appointing a committee to investigate the subject of pool and billiards at the Y. M. C. A., Oscar L. Corbett, general secretary of the association, yesterday issued the following statement:

"Members attending day school under 18 years of age and over 15, may play pool and billiards daily until 6 p. m., and, in addition, until 9 o'clock on Friday evening. All other boys who are in day school and under this age are allowed to play only upon the presentation of a game card bearing the endorsement of the assistant social director, who consults with parents in case of doubt as to the advisability of its issuance. There are twelve such permits now issued. All members who work during the daytime and who are under 18 years of age, may play at such times as they can come to the association. We have game cards issued as above. There are at this time fifteen such permits issued. We have very few employed boys under 14 years of age.

"Through the courtesy of Mrs. Young of the juvenile court, I have been given the names and addresses of the three boys concerning whom an article appeared in the Sunday papers relative to their playing pool at the association.

"One has been a member of the association since 1906, and has for a year and a half played pool and billiards in the association. He will be 18 years of age in March. He says that he has played nowhere else than the association with the exception of once in a while in order that he may have a few times in the men's club of the city and a few times in the public hall. He thinks that he learned to play in this association, and says that if he had not been able to learn here he would have learned elsewhere, he believes.

"The second boy has never been a member of the association, and says that he learned to play pool and billiards two years ago in Twin Falls, Ida., and that he has been in the Y. M. C. A. but once.

"The third boy has not been a member of the association for three years, but has come to the building a few times in the last few months, so he says, as a guest of other boys. On some of these occasions he played either pool or billiards with those who are members. His parents tell us that they are considering the matter of taking out a membership in the association for him in order that he may have a place where he can play these games under helpful influences.

"Two years ago, in company with one of the most prominent educators of the city, we counted seventy-five high school boys in public pool and billiard rooms at 5 o'clock in the afternoon. It seemed that as workers for boys we could not fairly censure the use of these innocent and helpful games even under the vicious influences which we found

men's conventions, has been appointed general freight and passenger agent for the Chicago, Milwaukee & Puget Sound railroad, the new company which has taken over the Pacific coast extension of the St. Paul road.

## VERDICT AGAINST OLSEN.

Milling Business Alleged to Have Suffered When He Got Into Politics.

Logan, Jan. 19.—The case of the South Cache County vs. Martin Olsen, which had occupied more than a week in jury, came to an end last night when the jury returned a verdict for the plaintiff, awarding it damages in the sum of \$2,000. The case attracted a great deal of attention on account of Olsen having been a member of the office of county assessor, largely for the reason that he became involved in the suit.

He was elected county assessor on the Republican ticket in 1908, but was denied a re-nomination in 1909, and it is the prevalent belief that the suit had much to do with his being turned down. He is maintaining that he was assessor, and his administration was so inefficient that the company sustained heavy losses.

When these losses were discovered and the facts concerning them came out, last summer, there were rumors that a criminal prosecution was to be launched against Olsen, and these stories no doubt prevented his re-nomination.

When the checking up of the accounts began and Olsen was called upon to assist in it, it was discovered that he had burned up his returned checks, check stubs and bank statements, and suit was then filed against him.

There is a great deal of discussion going on here over the temperance question just now. The whole county has been canvassed, and 80 per cent of the voters have signed the petitions for prohibition, but now that they have had time to think over the matter a little, many of them are repenting of their action—not because they are not in favor of temperance legislation, but because they have grown to believe that the hue and cry for state-wide prohibition is only part of a scheme to prevent the enactment of any temperance laws. Here, in the case of the South Cache County vs. Olsen, they saw in it a chance to make real experiment as to the efficacy of prohibition, without having it everlastingly fastened on them, for if voting "dry" proved to be unwise, they could vote "wet" the next election, but with state-wide law any such change, however badly desired, would be a matter of several years. There is a very strong belief prevalent here that the Republican state leaders are so to the brewers' combine, and that in conformity with the terms of that alleged contract no temperance legislation will be passed at this session, and well-known business men have refused to personally petition our representatives to fight for temperance legislation, because they believe the whole thing has been "fixed," and what is to be will be, and is to be.

## DEATH OF OLE C. JENSEN.

Ephraim, Jan. 19.—Ole C. Jensen, one of the prominent citizens of Mantel, died at his home in that place yesterday afternoon, after an illness of about seven weeks. Mr. Jensen was the son of Canute Jensen and was born in Denmark, Sept. 18, 1822, standing at Provo and finally locating at Gunnison. He took an active part in the business of the community, and was the age of 18 removed to Scipio, where his parents died in 1874. In 1879 he was called as a missionary to Apache county, Arizona, where he assisted in building the town of St. John. He was town clerk of that place for three years, also engaged in the furniture business while there. He was married to Elizabeth Lemp of Scipio in 1870, after which they moved to Mantel. His wife died several years ago, leaving him with three children, all of whom were grown. They are Henry O. Jensen, Mrs. Ernest Madsen and Mrs. Spencer Moffitt. Mr. Jensen has for many years been engaged in the sheep business.

The arrangements for the funeral have not yet been made.

them, unless we should provide the same games under helpful influence; consequently, we have so far as our means and space would permit furnished an opportunity for young men and boys to play pool and billiards under such guidance and supervision as interested in boys' work has suggested as best. It is not claimed that the supervision is perfect, but the arrangement as now made is the best that our present knowledge and equipment permit.

"For two years the association has been encouraging who believe will result in the supervision and direction of those sports which are most popular with boys. In the summer the open lot baseball field has no surpassed agency for cultivating habits of foot thought, profane language and unfairness. These should be supervised so that they would not only be turned into agencies for cultivating manliness and honor, but also for securing increased physical benefits.

"If 5,000 boys play baseball each summer under such supervision, which any one may verify by a five-minute walk, it would take a good many weeks and dollars expended in mental and normal education to bring the embryo citizen back to normal.

"What baseball is to the boys of the town in summer, billiards and pool are to them in the winter. Those in charge of the association game rooms tell me that it is very seldom indeed that a boy is found who will admit that he does not know how to play these games. We have not had a half dozen requests for instruction so far. I hope that the time will come when some organization or the city will provide facilities where boys under proper and wise guidance may play pool and billiards in a place of ample capacity and in the atmosphere of honor and culture.

"The guidance of the 'play' instinct of the boys of the city is an acute and pressing problem. While the association is able to do far less than we find needs to be done, we are now conducting a half dozen leagues, basketball, track, for boys and young men who are not members with us; and I sincerely hope that the ability of the association may be so increased that we may be able to overcome evil pool and billiard rooms with good pool and billiard rooms.

"It took the associations of America fifteen years to do this in a gymnasium field, but the associations all over the country are taking up the matter of pool and billiards, and it might be that perhaps hope for larger and earlier efficiency on that score.

"I am firmly convinced that in dealing with all these matters our methods should be to guide and direct the normal desires and activities of boys rather than to repress them; repression in this regard means hoodlum gangs, river bank caves and broken windows. Proper direction means much toward strong sane character."

## DISTRICT COURT NOTES

Carl I. Rindfleisch has brought suit against Thomas A. and Hermine S. H. Olson to quiet title to property in lot 8, block 22, plat F, Salt Lake City survey.

Suit has been filed by Nancy Briggs Birkinshaw against Willis Birkinshaw for an accounting of the rents from the two-story brick house at 35 East First South street and an adobe house in the rear, in both of which she has a life estate; also for restitution of the premises; to recover \$50 collected, and to restrain him from collecting any more of the rents from the property.

Oscar M. Engdahl is suing Margie Cosgrove, as administrator of the estate of John Cosgrove; Thomas Marnum, as administrator of the estate of Michael Cosgrove; P. T. Elwell, and Salt Lake county, for the partition of property comprising lot 2, block 21, plat B, Salt Lake City survey. Engdahl is one of the heirs. The property is located at the southwest corner of Fifth and Sixth South streets.

Judge C. W. Morse yesterday filed a decree in favor of the Golden Chain Mining company against Richard Tyner, an incompetent, by his guardian, Maria Tyner Ruggles, quieting title to claims known as the Slide View, Fairview, American Eagle, Oneida, Belcher and Gold Chain, in the Tintic mining district, Juab county.

Judge M. L. Ritchie yesterday continued until Feb. 11 the suit brought by Arthur Brown Bradley against Max Brown, administrator of the estate of former Senator Arthur Brown. The suit was brought to establish the rights of the children of Mrs. Anna Bradley to a share in the estate of Arthur Brown.

Kate G. Vorse began an action in the district court yesterday against Melvin B. Sowles, administrator of the estate of Justin A. Gooden, to quiet title to several lots in the county and in Salt Lake City.

Mary Riley is the plaintiff in a suit brought against McCormick & Co. for \$100 damages and to quiet title to the June Bug and Baby Elephant mining claims in Tooele county.

Nasal Catarrh, an inflammation of the delicate membrane lining the passages, is not cured by any mixture taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the fevered, swollen tissues are reached at once. Never mind how long you have suffered. We know Ely's Cream Balm is the remedy you should use. Price 50 cts.

If you prefer to use an atomizer, ask for Liquid Cream Balm. It has all the good qualities of the solid form of the remedy and will rid you of catarrh or hay fever. No cocaine to breed a dreadful habit. No mercury to dry out the secretion. Price 75c, with spraying tube. All druggists, or mailed by Ely Bros., 66 Warren street, New York.

## EPHRAIM NEWS NOTES.

Ephraim, Jan. 19.—Peter V. Bunderson, counselor to the bishop of Emery, left for Salt Lake during the week, where he will undergo an operation at the hospital for the removal of a growth.

The stork left a fine baby girl at the home of Mr. and Mrs. James Knapp of Mantel yesterday afternoon. The baby was the daughter of Fred Rasmussen, former assistant cashier to C. J. Fisher, who died a short time ago, was selected as cashier. F. Y. Jensen will for some time be the assistant.

The little child of J. P. Anderson of this city is reported to be very ill with pneumonia.

Mrs. Mary Ann Poulsen of Mt. Pleasant is lying at the point of death. She was the Indian wife of a settler and died a week ago, when she fell into a stupor and is gradually sinking.

Rufus Jensen of Mt. Pleasant met with an accident Sunday afternoon, while riding a horse, which slipped and fell, throwing the young man's leg beneath it. He was picked up by a passer-by and taken to the hospital.

The stork visited the home of Mr. and Mrs. Amos Bradley of Mt. Pleasant Saturday and left a fine baby girl.
